Wood Options

Basswood

Cedar

- ▶ 6 one-touch, preset health programs to help achieve desired result
- ▶ 10.5" Android-powered control panel
 - Clinically-backed near, mid & far infrared
 - ▶ health benefits

mPulse Empower Panels

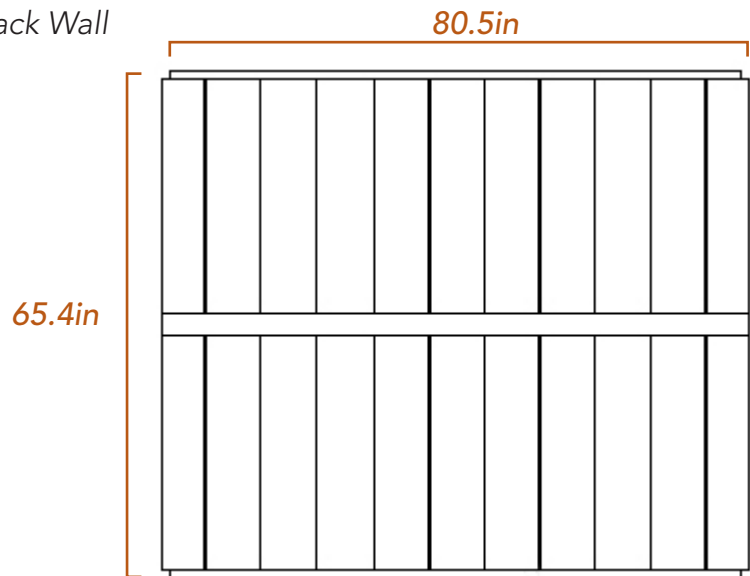

The eMPOWER is our largest sauna model. For seamless craftsmanship, each wall consists of one large wooden panel:

- Roof & Floor Panels
83.4"x72.1"x2.75" thick (see diagram)
- Back & Front Panels
80.5"x65.4"x2.75" thick (see diagram)
- Side Panels 69.5"x65.4"x2.75" thick

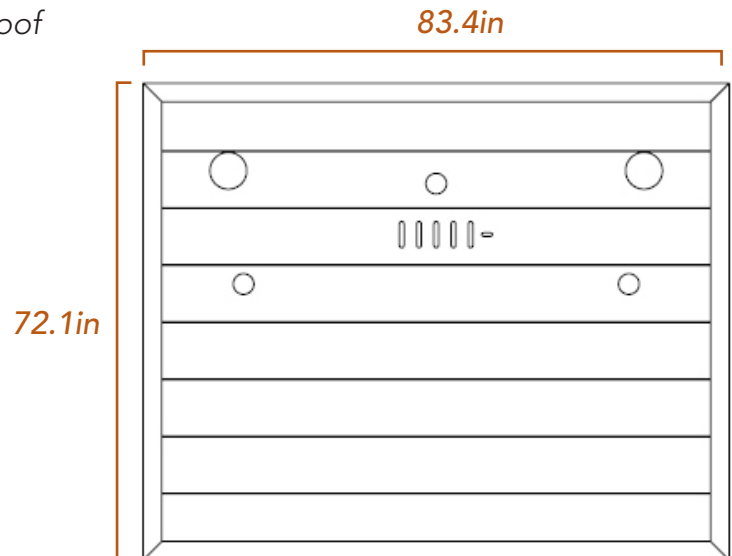

Fitting into your home:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase.

Back Wall

Roof

The mPulse Series is the only sauna series to offer near, mid and far infrared technology for targeted results. Featuring a 10.1" Android control panel, 6 wellness programs, highest quality eco-friendly wood options (hypoallergenic basswood, western Canadian cedar and eucalyptus), Magne-Seal assembly and ergonomic, floating benches, the mPulse is the smartest sauna on the planet.
